

In line single-acting flow control valves

FT 2253/5-01

Single-acting flow control valves available from 1/8" to 3/4" BSPP size, max. working pressure 350 Bar, adjustable oil flow rate from 1 to 80 Lt/min (depending on the size).

Single-acting control

In line or panel mounting

Stainless Steel AISI 316

Connections: F - F Female - Female

Technical information

Technical description

The valves FT 2253/5-01 are manufactured by the moulding of series FT 2251/2 and they allow precise flow regulation in one direction and full free flow in opposite direction thanks to the needle with incorporated ball they are equipped with. They are a valid alternative to FT 2257/5 for applications where the working pressure does not exceed 350 bar. They can be used also with fluids different from oil, such as: air, gas and liquids in general. They have the same characteristics as the FT 2257 series: • efficient metallic sealing; • flow linearity at the opening; • simple setting of flow rates; • secure against accidental needle lift-out; • secure needle position; • panel mounting provision, for which the correct locking nuts are supplied (only on request).

Materials

CORPO VALVOLA / VALVE BODY	Acciaio INOX / Stainless Steel AISI 316
SPILLO DI REGOLAZIONE / ADJUSTING NEEDLE	Acciaio/Steel X 10 Cr Ni S 1809-UNI EN 10088-1
GUARNIZIONI / GASKETS	FPM
ANELLI ANTIESTRUSIONE / ANTIEXTRUSION RINGS	PTFE
MANOPOLA TIPO MA - RA / KNOB TYPE MA - RA	Alluminio/Aluminum GD AlSi12- UNI EN AB 46100
MANOPOLA TIPO MP / KNOB TYPE MP	ABS
