

## METRIC Threads cartridge pressure compensated flow control valves

### FT 287/2

Compensated flow control valves available from 1/4" to 3/4" size - METRIC THREADS. Max. working Pressure 320 Bar, adjustable oil flow rate from 5 to 70 Lt./min. (depending on the size)

**Double-acting control**

**Pressure compensated flow control**

**METRIC threads**

**Carbon steel**

## Technical information

### Technical description

Pressure compensated flow control valves, to insert in modular units in line. They are essentially composed of the central body of valves series FT 277/2 which may be screwed in units preset by the user. The construction and functional characteristics reflect exactly those described for the two inlet valves. It is recommended to keep them in their protective wrapping until the mounting, in order to avoid possible drawbacks caused by eventual entry of particles into the delicate and essential parts for a good working. On page 94 is proposed a machining scheme for the embedding seat, which has to be observed to ensure the necessary accuracy of the valve. The constructive system allows the user, already provided with those versions, either to request the two inlet base bodies only, so as to allow their quick transformation, or to store the single standard components to assemble in the various types according to the need.

### Materials

CORPO BASE / BASE BODY	Acciaio/Steel 11 S Mn Pb 37-UNI EN 10087
GRUPPO DI COMPENSAZIONE / COMPENSATING UNIT	Acciaio/Steel 39 Ni Cr Mo 3-UNI EN 10083
GUARNIZIONI / GASKETS	Di serie NBR - A richiesta FPM/Standard NBR-on demand FPM
ANELLI ANTIESTRUSIONE / ANTIEXTRUSION RINGS	PTFE
MANOPOLA TIPO MA / KNOB TYPE MA	Alluminio/Aluminum GD AlSi12- UNI EN AB 46100
